Yosemite Alpine CSD P.O.Box 31 Fish Camp, CA 93623

RE: CA2210923-CA2210923

Enclosed are the results for sample(s) received on 31-Mar-23 16:30 by Precision Enviro-Tech. The sample(s) were analyzed according to instructions in accompanying chain-of-custody, utilizing EPA or other ELAP approved methodologies and . Results are summarized on the following pages.

Note: Total Coliform and E.Coli Test in Drinking Water using Coliert (P/A) or by Quanti-Tray testing method. The State Board of Health requires that bacteriological results must be 'ABSENCE' or less than 1 (for Quanti-Tray method) to meet drinking water requirements. All other testing parameter results must below *MCL* to meet drinking water requirements. *(MCL-Maximum contaminant level is the highest concentration of chemicals permitted in drinking water systems)*

Thank you for the opportunity to service the needs of your company.

Sincerely,

10. l.

Jonathan H.V. Le
